

i-CHEMS

International Conference on Clinical, Health, Engineering and Medical Sciences

Organized by

ISCBE

International Society for
Clinical & Biomedical Sciences
and Engineering

Date

8 – 9 October 2026

2 Full-day Conference

8 MMA POINTS • 16 MDC POINTS

Venue

Manipal University College Malaysia (MUCM)

Melaka, Malaysia

(HYBRID)

ACADEMIC PARTNERS

MANIPAL
UNIVERSITY COLLEGE
MALAYSIA

VELS
INSTITUTE OF SCIENCE, TECHNOLOGY & ADVANCED RESEARCH
(Formerly VELS Institute of Technology) (Autonomous) (AICTE Approved)
PALLAVARAM, THIRUVAIRUTHI, DISTRICT: SRIKALSHAI, TAMIL NADU - CHENNAI

SACE

PUBLISHING PARTNERS

Journal of Applied
Biology &
Biotechnology

СЕЧЕНОВСКИЙ
ВЕСТНИК

Sechenov Medical
Journal

International Journal of
Advancement in Life
Sciences Research

<https://manipal.edu.my/ichems2026>

A multidisciplinary platform uniting researchers, academicians, healthcare professionals, and industry experts to share innovations in bioengineering, healthcare technology, and environmental sustainability. Focusing on translational research and collaborative innovation, *i*-CHEMS promotes interdisciplinary dialogue and real-world applications to address global challenges. The conference features keynote speeches, research presentations, workshops, and networking sessions, fostering meaningful exchange and international collaboration.

 THEMES**Bioinformatics**

- AI for Global Health
- Genomics for Disease Prevention
- Precision Medicine Analytics
- Digital Epidemiology
- Data-Driven Drug Discovery

Biomedical Engineering

- Affordable Medical Devices
- Assistive & Rehabilitation Tech
- Smart Diagnostics
- Wearable Health Solutions
- Sustainable Biomaterials

Biotechnology

- Biotech for Sustainable Health
- Vaccine & Therapeutic Innovation
- Microbial Solutions for Health
- Agri-Biotech & Food Security
- Green Bioprocessing

Chemical Engineering

- Green Chemical Processes
- Clean Energy & Fuels
- Sustainable Materials
- Water & Waste Treatment
- Process Innovation for Health

Health Management

- Universal Health Coverage
- Health Systems Strengthening
- Digital Health Governance
- Quality & Patient Safety
- Health Equity & Access

Health Sciences

- Disease Prevention & Control
- Community & Public Health
- Nutrition & Healthy Lifestyles
- Environmental Health
- Mental Health & Well-Being

Medical & Dental Sciences

- Clinical Care Innovations
- Translational Medicine
- Oral Health for All
- Evidence-Based Practice
- Clinical Research & Innovation

Nanosciences & Nanotechnology

- Nanomedicine for Global Health
- Targeted Drug Delivery
- Nano-Diagnostics & Sensors
- Sustainable Nanomaterials
- Nano-Enabled Health Devices

INVITED SPEAKERS

Dr. Yuri Efremov

Sechenov University,
Russia

Dr. Anjana Singh

Nepal Academy of Science
and Technology, Nepal

Dr. Jayant Jagtap

Galgotias University,
Uttar Pradesh, India

Dr. Yehenaw Tadele Tenaw

College of Health and
Medical Sciences,
Haramaya University,
Ethiopia

Prof. Dr. D. K. Acharya

Gandhinagar University,
Gujarat, India

Dr. Amrita Ranjan

Cape Peninsula University
of Technology, Cape Town,
South Africa

Dr. Oluseyi P. Oladijo

Botswana International
University of Science and
Technology, Botswana

Dr. Pallav Sengupta

Gulf Medical University,
United Arab Emirates

Dr. Amudha J. Anand

KK Women's and Children's
Hospital, Singapore

Dr. Rajesh S. Pillai

Government Medical
College, Kozhikode, Kerala,
India

Dr. Seshadri N. Pramodh

Integra Healthcare Ltd,
Cayman Islands

Dr. Shirin Sanal

Vallejo Medical Center,
California, USA

Dr. Felix Anand Raj

Chettinad Hospital and
Research institute,
Chennai, India.

Awards & Recognition

Landing to this page

AWARDS & RECOGNITION

Lifetime Achievement Award

Senior Innovator Award

Young Innovator Award

Outstanding Research Excellence Award

Young Scientist Award

Best Impact Researcher Award

Best Interdisciplinary Researcher Award

Sustainability Researcher Award

Emerging Technology Researcher Award

Global Research Contributor Award

Eligibility Criteria, Rules and Regulation for Different Categories of Awards

- All awards are strictly reserved for participants who register and attend the conference physically.
- All applicants must present their research work, except for the Lifetime Achievement Award.
- All awards are reserved for participating academicians and scientists (working or retired).

Age Criteria:

- Lifetime Achievement Award: 50 years and above
- Senior Innovator Award: 40 years and above
- Young Innovator Award: Below 40 years
- Young Scientist Award: 25 to 35 years
- Other Categories: 30 years and above

Application Rules

- Participants can apply for only one award category based on eligibility and personal choice.
- Applications submitted under the wrong category will be rejected by the Jury/Committee.
- Last Date of Application: 30th August 2026.
- All applications must be supported with documentary evidence (proof).
- All applicants must submit an updated CV.
- A recommendation letter or testimonial from a superior familiar with the applicant's professional work is mandatory.
- All documents (CV, recommendation letter/testimonial, and supporting documents) must be uploaded along with the award application through Google Form.
- The decision of the Jury/Committee and Organizers is final in all respects; no questions will be entertained.

Award Selection Criteria

- Applicants for the Young Scientist Award are required to present their research work. The selection for this award will be based on the quality of the presentation and the research work presented.
- Recipients of all other awards will be selected based on their CV, research work, and overall academic/research contributions.

Application:

ISCBE

International Society for
Clinical & Biomedical Sciences
and Engineering

The **International Society for Clinical & Biomedical Sciences and Engineering (ISCBE)** is a global professional organization dedicated to advancing clinical sciences, healthcare innovation, biomedical engineering, and interdisciplinary research.

Vision of ISCBE

To be a leading global platform where clinicians, researchers, healthcare leaders, and biomedical engineers collaborate to drive transformative innovation, advance medical technologies, and improve healthcare outcomes worldwide.

Mission of ISCBE

To advance excellence at the intersection of clinical sciences, biomedical engineering, and health technology through multidisciplinary collaboration, education, research, professional development, innovation, and international partnerships.

Objectives

- Organize international conferences, workshops, and training programs.
- Publish journals, newsletters, and annual reports.
- Promote student chapters, research groups, and collaborative networks.
- Support research grants, seed funding, and innovation competitions.
- Develop professional standards, guidelines, and competency frameworks.
- Facilitate industry–academia partnerships.
- Offer fellowship, membership levels, and certification programs.
- Contribute to global discussions on clinical practice, health systems, and biomedical engineering.

Join the society and unlock your potential!!!
